**REACH OUTSTANDING®
BUSINESS & LEADERSHIP COACHING PROGRAMME**

PROGRAMME OVERVIEW

Reach Outstanding® is proud to present our Business & Leadership Coaching Programme.

We offer a path to gain the ICF accreditation at both ACC and PCC levels.

At level 1 , we will be covering items like...

Foundations of coaching	Bad coaching and what not to do
Finding your coaching niche	ICF Code of Ethics
ICF Core Competencies	Peer Coaching
Coaching demonstrations	Group Coaching
Creating your business' vision	Assessment Tools

During the programme, continuous assessments will be undertaken where students will be submitting 6 recordings which will be measured against the ICF coaching competencies.

What makes our school different is that we also help you build your practice with the second half of the school covering items like creating your mission, vision, buyer's persona and much more.

Nothing is more scary for new coaches than creating a social media presence: how should I brand myself, which platform should I go on? We have that answer too! To help our students with this part of their business, we have partnered with a social media company and curated a special 8 weeks program called **social media for coaches, designed especially for our students.**

What's even better is that, this program is **included** in the cost of the school
